Skellerup buys I.C.L. computer

Skellerup Industries, Ltd, is the first New Zealand company to place an order for the new I.C.L. 2903 computer system, International Computers New Zealand, Ltd, reports.

The computer, which is to be installed in mid-1974, will initially process accounting and payroll applications and will provide management information through the use of financial modelling programmes.

I.C.L. has taken orders for more than 80 model 2903 computers world-wide in the first month since the unveiling of the new system at the Hanover Fair. Two of the orders are from New Zealand companies.
