DATA PROCESSING INDUSTRY

DUE TO THE EXPANSION of our our activities we require an additional consultant for our Christchurch Branch.

We are principally involved in selling and supporting all types of accounting systems to chartered accountants and to industry, and we would envisage that men aged 25-35 with some knowledge of accounting or clerical procedures would have the experience and maturity required for this position. Some knowledge of E.D.P. would be an advantage, but not essential as a thorough training is provided.

After an introductory period a consultant would become part of a team supporting our many existing customers and introducing new businesses to the bureau. If you enjoy working with people, helping to solve their problems, you would find the role of a bureau consultant an interesting and rewarding position.
